

## **NOTIFICATION STUDENT FACILITATION OF RESEARCH POLICY**

As per decision of the Research Advisory/Ethical Review Committee in its meeting held on 18-07-18 the following policy for the facilitation of research for students is hereby notified.

- The faculty should involve at least 2-3 students from their respective year of teaching of that subject (e.g. Biochemistry shall involve students of 1<sup>st</sup>/2<sup>nd</sup> year, Surgery shall involve students of final year etc.) for data collection of their ongoing and future research projects.
- The faculty involving the students in research will be given extra credit in the Annual Performance Evaluation Reports (PER).
- The students who participate or publish a research project during their studies will be given extra credit in the internal assessment.
- Financial support in the form of discounted investigations of participants of research in the students research programs will be given.
